ZycoTherm

Low-Odor Antistrip and Warm Mix Technology

ZycoTherm is an organosilane based liquid antistrip (LAS) additive, which provides the optional additional benefit of traditional warm mix asphalt (WMA). ZycoTherm allows for the complete chemical bonding of asphalt binder to aggregates at significantly lower dosage rates compared to similar LAS products.

ZycoTherm Benefits:

- Excellent Compaction in Cold Climates
- Compatible with PPA, SBS & CRMB
- Extremely Low Dosage Rates 5x-10x Lower
- Antistrip with Optional WMA Benefit
- Higher Incorporation of RAP
- Non-Toxic and Low-Odor
- Excellent Salt Tolerance
- Longer Hauls
